June 24, 2021

Dear South Allegheny Family,

First and foremost, I hope everyone is having a great summer so far, and enjoying the steady and safe return to “normal” with regards to COVID-19. The South Allegheny School District has been and will continue to follow CDC, Allegheny County Health Department and PA Department of Education recommendations with regards to fully reopening schools in the fall.

As of right now, it is the intention of the District to completely reopen schools in the fall 5 days a week. We also anticipate having full transportation services restored with our new provider, Student Transportation of America.

Please note that if you still have concerns regarding returning your child(ren) to school, the District offers an in-house SASD Cyber Academy, which is facilitated by our own South Allegheny faculty, and is the most fiscally responsible choice for our taxpayers and community. If this is a need for your family, please contact your building's administration for more information.

As we all know, guidelines can change without much notice; however, with the increase in vaccinated individuals, the numbers of cases within our area have decreased drastically. I felt it was important to notify you early so you can plan for the fall well in advance. If there are any changes as we continue to move through the summer, I will let you know as soon as possible.

Sincerely,

Dr. Lisa N. Duval
Superintendent
