Dear SAE Families,

This letter is to inform you that we have students within our building that have severe peanut/tree nut allergies. Any exposure, contact and/or ingestion, to peanuts/tree nuts could result in potentially life-threatening reactions that would require emergency medical treatment. The South Allegheny Elementary School is making families aware as a preventable measure so we can continue to ensure all students are provided with a safe and healthy learning environment. The school will continue to follow the Food Allergy Management Policy as well as the Wellness Policy. We are asking families to please continue to be cognizant of the health, safety, and well being of all our students. As a reminder to students and families, we want to educate our students in a positive manner, ensuring that all students are treated with respect in regards to their differences. Treating another person negatively because of their differences will not be tolerated. We appreciate everyone's attention and continued support. If you have any questions or concerns please contact the school at 412-675-3070 ext. 2300.

Yours in Education,

The South Allegheny Elementary Administration
